

## Claims

[c1] What is claimed is:

1.A computer housing comprising:  
a frame;  
a plurality of ribs installed on the frame, wherein two of adjacent ribs form an expansion slot and each of the rib includes at least one front supporting piece and at least one rear supporting piece; and  
a plurality of brackets, wherein each of the bracket is superimposed on the front supporting pieces of the adjacent ribs and squeeze the rear supporting pieces of the adjacent ribs to prevent a leakage of electromagnetic radiation.

[c2] 2.The computer housing of claim 1, wherein the front supporting piece and the rear supporting piece of each rib are formed in one piece.

[c3] 3.The computer housing of claim 1, wherein a height difference is occurred between the front supporting piece and the rear supporting piece of each ribwherein the height difference is almost equivalent to a thickness of the bracket for accommodating the bracket.

- [c4] 4.The computer housing of claim 1, wherein after the bracket is disassembled, the expansion slot can accommodate an add-on card.
- [c5] 5.The computer housing of claim 1, wherein the frame and the plurality of ribs are formed in one piece.
- [c6] 6.The computer housing of claim 1, wherein each of the ribs comprises two front supporting pieces and one rear supporting piece, and the rear supporting piece is connected between the two front supporting pieces.
